

MELKA WINES  
2005 CJ RELEASE

Hello to all our Melka Wines Faithfuls. It is time again for the release of our well-loved CJ Cabernet.

In 2005 we had a copious harvest, which means that this wine is in more abundant quantity than previous vintages. We were finally in a cooler ripening season and we harvested most of the grapes in October.

The wine is available for order **starting September 25, 2007**. We encourage you to order online by clicking on the place an order tab on the web site. If you prefer to fax in your order, please print the order form and fax it in. The wines will ship out within two weeks of placing your order. Please call the winery if you have any questions.

WHAT'S NEW?

We tasted our wine from Saint Emilion this past summer and we are happy to report that despite the challenge of producing a wine at quite a geographical distance, we are extremely positive about the result. The wine is being produced at Château Le Châtelet in Saint Emilion which is right next to Beausejour Becôt. With the assistance of winemaker Julien Bergal and liaison Lionel Kreff, we have managed to create a wine that screams terroir in the glass. This limited quantity production will only be available to direct mail customers. Release date projected for the fall of 2008.

From our family to yours, warm thanks for your devotion and enthusiasm for Melka Wines.
